..... FOREIGN EXCHANGE STEADY.

Wall STREET, | WEDNESDAY, March 17-6 P. M. Much interest to-day attached to the course of prices, and at times there was an exhibition of onsiderable excitement. This was especially observable in the gold market, owing to the important advance that is recorded below. Still higher prices are predicted as a fulfilment of the plans of t a few among the watchful observers who look for trouble. The failure of a large New York sugar ouse, the private advices from London concerning the results of the late furthurn failure, the uncertainty which attaches to the recent upward ovement in stocks, the firmness of government bonds, the breaking up of the ice and carrying way of Erie bridges-these were incidents that materially disturbed the calculations of active operators, and left the situation unsettled and ir-

bowever, was shown by the transactions of the ay, and at the close the recent a rong undertone was not materially allered. During the next sixty days many important changes are expected. The improvement in trade, the supposed benefits that will accrue to railroads from spring business when the rigors of winter shall have passed away. the steadily advancing rates of some of the great staples-these and other encouraging signs are regarded as elements of a condition that may give a new complexion to the calculations of eculators and perhaps make a more substantial may be profitably scrutinized, and he who makes or loses money must do so on his own individual judgment. The details of the fallure alluded to bove will be lound elsewhere. A meeting of Pacide Mail directors was held to-day, at which ending differences between the company and Mr. John Roach, the steamship builder, were, as the writer is assured by competent authority, satistactorily adjusted. The failure in London of Stordet & Co. was a natural sequence of the suspension of Imthurn & Co., already reported, the rincipal of the first named firm being a family relation who had treety indorsed the paper of his

THE GOLD MAER	ET	

was unusually active and excited. The opening was made at 115%, from which there was a promp advance to 116 and subsequently to 116% a 116 The close was made at the last named figure. was apparently not the purpose of the chque however, to maintain the recent heavy rates is the use of gold, and we note that the range ic borrowing was 1-64 and 1-52 for immediate delive per diem, and 4, 3 and 2 per cent per annua Toward the close loans were made flat and at per cent for carrying. The market is one which is likely to prove such of interest to all who may be identified with the same, because it was generally given out on the street that the figures were ikely to advance, owing to the scarcity of gold in the country and the demand for the commodity by merchants and importers. Many of the latter are tnown to be shor, and it is claimed by the "bulls" that the absorption of duties between this time and the 1st of May will make a demand which, in connection with the small amount held by the banks, will produce stringency and tous sugment the profits of the present speculators.

call loans were generally quoted at 4 and 5 per cent. When higher rates are named capital in abundantly supplied. Prime mercantile paper is in demand at 5 a 5% per cent for 60 days and 5 and 6 six per cent for four months. Good namer for the same date are quoted at 6 and 7 per cent. Single names sell at 5% a 7% for first class and good paper; miscellaneous grades, 8 and 10 per cent. Foreign exchange was weaker, with bustness at 4.78 a 4.78 % for bankers' 60 days sterling and 4.82 a 4.8234 for demand.

THE UNITED STATES TREASURY.

The customs receipts to-day were \$600,000; for the week ending March 13, \$2,800,000. The Assistant Treasurer paid out to-day \$30,000 on account of interest and \$196,000 in redemption of five-twenty bonds. Revenue receipts to-day. \$190,000. National bank notes received for redemption, \$340,000.

SOUTHERN BONDS. The Southern State bonds were duil. Missouris are lower at 96% bid for plain sixes, and 95% bid for the St. Joseph issue. Old North Carolinas are offered at 22%, new at 15, and special tax, second and third series, at 5, first closing at 3 bid. Old South Carolinas are 31 bid, and new July and January, and April and October 29 bid; old and new plain Tennessees closed at 64 bid, old excoupon at 47% a 50, and o'd at 47% bid, after sales at 48, new series offering at 47%; Virginias are lower at 32 bid for old and new, and copsols 58% a 59, deferred offering at 101; old and new Louisianas closed at 30 bid, levee sixes at 29 bid,

and levee eights at 27 bid. THE FOREIGN MARKET is without important feature. American securi-ties and consols are firm. The following are the last quotations:—Consols for money, 92% a 93; do. for account, 93 a 93%; 1865 bonds, old, 107% a 107%; 1807 bonds, 107%; ten-lorty bonds, 103; new fives, 103%; Erie, 24 a 24%. Market dull. The rate of discount in open market for three months' bills, is 3% per cent or % below that of the Bank of England. Rentes at Paris, 65f. 35c.

RAILROAD BONDS These were less active and in many instances lower, the recent sharp advance affording a good opportunity for realization. Union Pacific land grants sold at 99% a 100, and sinking funds at 89 % a 88 % a 89. New York Central coupon firsts brought 1134; do. sixes of 1883, 100; New Jersey Central firsts, new, 100%, and Chicago and Northwestern consolidated coupon gold bonds, 83%. The decline in Union Pacific sinking fund bonds is ascribed to a report from Washington that the collecting 5 per cent on the net receipts of the

The trade movement was slower to-day, some of the leading articles of merchandise which were lately active and advancing being decidedly duil and heavy, while some were lower. The export movement in breadstuffs recently mentioned was checked by an advance in freights and the unsettled condition of exchange, and almost nothing was done, the market being simply dull and nomi nally lower for spring wheat. Flour was quiet but unchanged. Corn was dull and lower. Oats quiet. Bariey steady. Rye nominal. Pork was a shade easier, but only a shade. government is about to move in the matter of | Lard was in fair request or steady, prices closing easy. Other kinds of nog meats were firm. Cotton continued quiet, and while 'spot' showed no material change in value 'future" suffered a turther slight decline. Groceries were quiet and unchanged, excepting coffee, which was rather easier. Freights firmer for grain accommodation on the berth. Petroleum steadier under a better de mand. Naval stores quiet and unchanged. Whiskey

Corren.-The demand from all sources is very moderate and the few dealings were mainly in jobbing lots; erate and the few dealings were mainly in jobbing lots; values are rather lower, and to sell from first hands encessions would have to be made. WALL STREET NOTES.

FAILURE OF A SUGAR HOUSE-THE GOLD GRAB-BERS AT WORK-THE CASE OF BAYNE AND CO .- ANOTHER LONDON FAILURE-WEST WIS-CONSIN BAILROAD BONDHOLDERS-STOCKS AT AUCTION-THE BIG BONANZAS.

A large failure was recorded to-day in the sugar trade. The HERALD representative immediately waited on the firm whose suspension was reported, Messrs. Aldama & Fuller, whose office is at No. 107 Wall street, and received from Mr. Fuller the following particulars:- They have suspended with liabilities amounting to about \$400,000. Their assets are about \$300,000 in cash and other securities-real estate and otherwiseamounting to nearly \$700,000, a portion of which is locked up just now in an unprofitable sugar refinery in Brooklyn, and the bad odor of sugar paper has prevented the negotiation of sufficient sums to carry the firm through their troubles.

Mr. Miguel Aldama has been the agent of the Cubans in this country, and is said to be largely identified with their cause. It is not known whether any complications growing out of this political alliance have anything to do with the firm's troubles.

Aldama & Fulier are the successors of Brunje. Ockersbausen & Co., whose establishment at the loot of Canal street was hired by the new concern. To meet their necessities they proceeded to build a large refinery at the Atlantic Decks, which they are expecting to occupy on the 1st May, and on which they have expended within the past year, in cash, about \$400,000. They ask an extension of two, four and six months, which their creditors will probably ac ord them. There is no question, however, but that the disturbing GOLD MARKET.

The premium advanced yesterday to 116%, and after business hours calls were freely bid for at 117 to-day. Sterling exchange was completely demoralized and the lowest rates of this year were DANK BLANKS, SLIPS, BILLS, RECEIPIS, NOTE Bleadings and every kind of Printing suitable for banks, bankers, prokers and dimerial companies promptly furnished, at the METROPOLITAN PRINTING EXTABLISHMENT, NO. 238 Broadway.

banks on Saturday will show that there is absolutely no metal in New York vaults. It is difficult to say where their machinations will end or what widespread disasters they may provoke. Their prime object has undoubtedly been to break the stock market; but, failing in this, they take advantage of additional London Failures and temporary home troubles to carry dismay into every merobant's office in America.

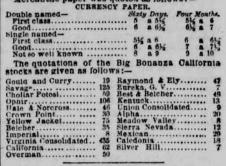

THE NORTH CAROLINA BOND CASE

was settled vesterday by the deposit of \$425,000 with the clerk of Judge Donohue's court; but it is understood that an appeal will at once be taken, and Messrs. L. P. Bayne & Co. claim that their advances of \$30,000 in cash and a larger sum due to commissions must be pad before the bonds can be released to the claimants. There is a nice question of the responsibility of contractors involved in this suit, and the decision of the Supreme Court will be looked for with interest.

Was announced by cable about one o'clock yesterday, that of Messrs. Sleoruit & Co., said to be caused by the complications growing out of the suspension of Messrs. Imituum & Co. Their liabilities were not stated.

BOARD OF EDUCATION.

THE CATHOLIC PAROCHIAL SCHOOLS TO BE MERGED IN THE COMMON SCHOOLS-THE FIRST REPORT OF FAILURE FROM THE AGENTS OF TRUANCY-RULES FOR THE NAUTI-CAL SCHOOL. The Board of Education met vesterday after-

noon, President Neilson in the chair. The Superintendent and agents of truancy ap-pointed under the Compulsory law made their first report. The total number of cases investi-

gated were 534. Of this number 393 were kept at home by sickness and other causes, leaving 141 cases of truants and non-attendants, of which 114 have been placed at school by the several agents, eaving 37 still in the hands of the agents. It has peen lound impossible to obtain the correct names and residences of the children who are found wandering about the streets, and but little has been accomplished toward getting this class of children into the schools. They seem to be "well posted" as to the law and either evade or reluse to answer the questions put to them. Nothing can be done until the census shall have been completed. The report recommends the reopening of the evening schools in order to enable factory children and others to procure their caruffcale of fourteen weeks of schooling. THE CATHOLIC PAROCHIAL SCHOOLS.

A communication from representatives of Catho-lic parochial schools was read, requesting the Board to appoint a committee to meet a committee representing their interests to consider on what terms the paroculal schools may be admitted to the benefits of the public school system, subject to its laws as regards the course of instruction, the methods of discipline and the gen-e al management in such manner as may be agreed upon. The letter says that the number of pupils in the schools is 50,000, fifty schools, most of which have large and commodious buildings erected for school purposes. provided with almost everything necessary for free schools, and capable of affording sufficient space for from 300 to 1,000 children each. It referred, also, to the fact that a union somewhat similar to that here proposed exists in many parts of this State and in some other states and that the results have been so satisfactory that Protestants and Catholics alike approve and support it. "As the undersigned and those whom they represent have paid and still pay their full share of the taxes that go to the support of the common schools they hope your honorable body will invortably consider their request and take such action as may ultimately lead to greater harmony in a work of such was importance as that of popular education." O'Reilly, pastor of St. Harvis; James R. Floyd, E. J. O'Reilly, pastor of St. Francis Xayier's. The communication was referred, on modion of Mr. Wetmore, to a special committee, which is to include Fresident Neilson. Messrs. Wetmore, Farr, Baker. Kelly, Townsend and Vermiyea were named such committee.

The tity Superintendent made a lengthy report on the result of the examination of schools in February, stating them to have been exceedingly satisfactory. The tregularity of attendance at the evening schools is the greatest oostacle to their success, and since the principal have no means of notifying parents or gaardiani of the absence of their children there is no doubt that munic trunacy prevails. It would seem to be necessary that some provision should be made to prevent this eviley the Superintendent of Trunacy, in regard to the Evening fligh school he says that eightly per cent of all the students had not advanced beyond the grade usually reached by pupils of the higher grades in the ordinary evening schools.
